

**Course Title: Basic Communications Laboratory Work**

**Course Code: ETEG 322**

**Credit Hours: 3**

**Course Description:**

Reinforce the concepts learned in those theory classes that have a strong practical applications emphasis, by a series of relevant experiments carried out in the laboratory.

**Course Contents:**

A series of experiments to reinforce learning of the subject matter taught in 'ETEG320: Communication System Engineering'. Ten to twelve practical works needs to be done.

**Evaluation:**

In-Semester Evaluation: 80%

End-Semester Evaluation: 20%
